Roboflow / Engineering

Motor tracking gets interesting when someone performs the same exercise differently from the person demonstrating it. Those are the cases I'd want in a vision evaluation set.

MotionBloom / Co-founder

Built motor-practice software with markerless tracking. Reached 200+ users across 15+ countries and seven platforms, with pilots in three senior-living settings.

H3 Clinic / Intake software

Worked with six nurses to digitize intake and vital signs. Built edit history and read-aloud text, and helped staff learn the system during clinic operations.

NC State Lin Lab / Computational research

Contributed to protein-DNA binding research and developed NeuroIDEA to study TCF4 in Pitt-Hopkins syndrome. Presented NeuroIDEA at the Society for Neuroscience annual meeting.

Education

Panther Creek High School, expected June 2027. Dual enrollment at Wake Technical Community College, including linear algebra and differential equations.
